EFFECTIVE DATE: 29 JULY 2013-JUNE 2016

COUNCIL RESOLUTION NO: CS20/2013

COUNCIL MEETING DATED: 29 JULY 2013

**INTRODUCTION**

After having established ourselves as an institution of government capable on delivering on the needs of our communities, there is a need to create a policy environment that will give effect to youth development initiatives. This Policy Framework takes its cure from advances, shortfalls, and challenges that the municipality incurred since its formal inception in the year 2000.

South Africa, through its Constitution (1996), recognizes the role played by youth and their future role in molding a society that all can be proud of. The founding of the National and the Provincial Youth Commissions I the early years of our democracy and recent formulation of National Youth Development Agency are demonstration of the value attached to youth in society.

This policy is a prescription of the National Youth Development Framework for Local Government which was adopted in March 2008 at the National Youth in infrastructure Summit. The said national policy itself flows from the National Youth Development Policy Framework (NYDPF): 2002-2007, which also flows from the National Youth Policy (2000).

All the mentioned national youth policies prescribe that each municipality should develop and formally adopt a Local Youth Policy as a statement of commitment of participatory youth development.

The Local Government sector has undergone very profound changes over the past decade, resulting in the establishment of new municipal structures in 2000. The Constitution provides for a developmental municipality whose role is direct provision of basic and developmental services to its area of jurisdiction. The Municipal Structures Act (1998), Municipal Systems Act (2000), White Paper on Local Government (1998), and the Integrated Development Planning and Performance Management Regulations (2001) were developed to bind all the metropolitan, district, and local municipalities in their youth development practices across the country.
The municipality subsequently identified the need to develop a youth development policy that among other things will spur on the active involvement of youth in service development, implementation and creating opportunities for youth to have a voice in decisions which affect them.

Over the period of its existence, Fetakgomo Local Municipality has learned that its youth are faced with myriads of challenges such as: unemployment, poverty, HIV/AIDS, limited access to higher education as well as lack of skills development opportunities among others. Our youth are also confronted with the challenges of substance abuse, moral degeneration.

- **BACKGROUND**

The Fetakgomo Local Municipality is a category B municipality that is located within the Greater Sekhukhune District Municipality (GSDM) of Limpopo Province. Current demographic research (Statistics South Africa, 2007) indicates that the municipality hosts a population of about 112,232. This represents a statistically significant increase compared with about 92,083 populations in 2001. The municipal area is largely rural, and is dominated by traditional land ownership. Like most rural municipalities in South Africa, Fetakgomo is characterized by a weak economic base, poor infrastructure, major service backlogs, dispersed human settlements and high poverty levels. The municipality itself is also an embryonic one that is currently grappling with revenue generation and performing its full array of functions effectively.

In the social field the municipality is beset with low/weak education base and illiteracy levels. The number of people with no schooling account for 18.7% (18,412) of the population. No schooling proportion is followed by those who have some primary education. There are a handful of people in the area with bachelor’s degree, 520 people.

Despite its spatial legacy and relative newness of the organization, Fetakgomo Local Municipality has a bold development vision, as well as seasoned leadership to pursue it.
